Data Closet Management

Rack Layout Diagrams:

Generated 1 rack diagram from configuration:

Rack-1 (Location 1)

```
graph LR; Switch[Switch] --- PDU[PDU]; PDU --- Rack[Rack]; Rack --- UPS[ups 1];
```

The diagram illustrates a network setup. At the top, a horizontal bar represents a network switch, labeled "Switch". Below this, a vertical line descends and connects to another horizontal bar representing a Power Distribution Unit (PDU), labeled "PDU". From the bottom of the PDU, a vertical line descends and connects to a server rack. The server rack is represented by a vertical bar with multiple horizontal slots, and it is labeled "ups 1" at the bottom.

Rack Height	42U
Installed Devices	3

Power Outlet Mapping:

Generated power mapping table with 3 power-related devices:
